Retirement portfolio guidance for finance professionals

Retirement is one of the most important parts of the financial planning process. Yet only two percent of financial advisors describe themselves as competent in retirement planning.

Constructing a retirement portfolio is viewed as a difficult endeavor, and the demands facing financial advisors responsible for this task continue to grow. The pressures are particularly intense due to events such as the financial crisis and oncoming rush of retiring baby boomers. It is imperative that financial advisors be equipped and ready to create appropriate retirement portfolios. That's why Michael Zwecher-a leading expert on retirement income-has created *Retirement Portfolios*.

- Examines how portfolios should be prepped in advance so that the transition from "working" portfolio to retirement portfolio is smooth and seamless
- Outlines how to create a portfolio that will provide income, continue to generate growth, and protect assets from disaster
- Details the differences in managing a retirement portfolio versus managing portfolios during asset accumulation years

The ability to create retirement portfolios and manage their risks are skills you must possess to be an effective financial advisor. *Retirement Portfolios* will help you develop these essential skills and gain a better understanding of the entire process.
