## **Edenborn** Nick Sagan

*Edenborn* begins with a stark landscape—a microbial apocalypse called Black Ep has wiped humanity from the globe—yet all is not lost. Six individuals have survived the epidemic and are now committed to the task of rebuilding a peaceful civilization. But not everyone shares the same vision, and soon two very different societies begin to form.

As we follow a child from each "family," someone—or something—begins to threaten their innocence. And as the mystery mounts, a mutated strain of Black Ep makes a deadly return. Now the architects who gave breath to this new world must scramble to protect their children from a two-front assault.

It's a race against extinction, and Nick Sagan keeps us riveted to the page.
