Introduction to Zen Buddhism, including "A manual of Zen Buddhism Daisetz Teitaro Suzuki

These essential and seminal works helped acquaint Westerners with the mysterious yet infinitely compelling nuances of Zen. It contains all yet tells nothing. A lifelong study of Zen yields only an "Aha!" when understanding finally comes. Dr. Suzuki labored to translate Zen into a form most readily understood by the Western mind which, honed by Platonic logic, and restricted by Newton's scientific methods, refuses to believe that which cannot be seen, nor to see that which cannot be believed. Read these works. Open your mind. See the web of life that has ensnared you, see the one in all and the all in one, and you too may say, "Aha!"
