Separates fact from fiction for what makes an employee indispensable

When trying to move ahead or even just keep a job, there are actions that would be of great advantage to any employee and there are strategies that are just plain stupid. Interestingly enough, the stupid strategies are used twice as frequently in corporate America. Indispensable By Monday goes beyond conventional wisdom to reveal and impart the skills and behaviors that any employee at any level of any organization can implement to bring substantial dollars to the company.

Author Larry Myler and organizational performance consulting firm Vital Smarts asked 1,800 corporate leaders to identify the bottom-line behaviors that would make employees essential to their organizations. Now, Myler distills what he learned for every employee and employer. Indispensable By Monday outlines the profit-producing behaviors that distinguish workers who add value from those who don't, such as reducing company costs, increasing income, improving key processes, bringing back lost customers and more.
