The United States and West Africa (Rochester Studies in African History and the Diaspora)

Over the last several decades, historians have conducted extensive research into contact between the United States and West Africa during the era of the transatlantic trade. Yet we still understand relatively little about more recent relations between the two areas. This multidisciplinary volume presents the most comprehensive analysis of the U.S.-West African relationship to date, filling a significant gap in the literature by examining the social, cultural, political, and economic bonds that have, in recent years, drawn these two world regions into increasingly closer contact. Beginning with examinations of factors that linked the nations during European colonial rule of Africa, and spanning to discussions of U.S. foreign policy with regard to West Africa from the Cold War through the end of the twentieth century and beyond, these essays constitute the first volume devoted to interrogating the complex relationship -- both historic and contemporary -- between the United States and West Africa. Contributors: Abdul Karim Bangura, Karen B. Bell, Peter A. Dumbuya, Kwame Essien, Andrew I. E. Ewoh, Toyin Falola, Osman Gbla, John Wess Grant, Stephen A. Harmon, Harold R.
