Social Network Analysis: History, Theory and Methodology Christina Prell

We live in a world that is paradoxically small and vast: each of us is embedded in local communities and yet we are only a few 'links' away from anyone else in the world.

This engaging book represents these interdependencies' positive and negative consequences, their multiple effects and the ways in which a local occurrence in one part of the world can directly affect the rest. Then it demonstrates precisely how these interactions and relationships form.

This is a book for the social network novice on learning how to study, think about and analyse social networks; the intermediate user, not yet familiar with some of the newer developments in the field; and the teacher looking for a range of exercises, as well as an up-to-date historical account of the field.

It is divided into three sections:

1. Historical & Background Concepts
2. Levels of Analysis
3. Advances, Extensions and Conclusions

The book provides a full overview of the field - historical origins, common theoretical perspectives and frameworks; traditional and current analytical procedures and fundamental mathematical equations needed to get a foothold in the field.

From reader reviews:

Jamey Ainsworth:

Nowadays reading books are more than want or need but also be a life style. This reading behavior give you lot of advantages. The benefits you got of course the knowledge your information inside the book that will improve your knowledge and information. The knowledge you get based on what kind of e-book you read, if you want drive more knowledge just go with education and learning books but if you want really feel happy read one along with theme for entertaining such as comic or novel. The particular Social Network Analysis: History, Theory and Methodology is kind of e-book which is giving the reader unstable experience.

Sarah Johnson:

Your reading 6th sense will not betray an individual, why because this Social Network Analysis: History, Theory and Methodology guide written by well-known writer who really knows well how to make book that could be understand by anyone who all read the book. Written within good manner for you, dripping every ideas and creating skill only for eliminate your hunger then you still question Social Network Analysis: History, Theory and Methodology as good book not just by the cover but also from the content. This is one reserve that can break don't ascertain book by its include, so do you still needing another sixth sense to pick this!? Oh come on your reading sixth sense already told you so why you have to listening to a different sixth sense.

Scott Smith:

Beside this specific Social Network Analysis: History, Theory and Methodology in your phone, it can give you a way to get nearer to the new knowledge or information. The information and the knowledge you can got here is fresh through the oven so don't become worry if you feel like an old people live in narrow commune. It is good thing to have Social Network Analysis: History, Theory and Methodology because this book offers for your requirements readable information. Do you sometimes have book but you would not get what it's exactly about. Oh come on, that won't happen if you have this inside your hand. The Enjoyable set up here cannot be questionable, such as treasuring beautiful island. So do you still want to miss it? Find this book in addition to read it from today!

David Blackwood:

As a pupil exactly feel bored to be able to reading. If their teacher questioned them to go to the library as well as to make summary for some publication, they are complained. Just tiny students that has reading's heart or real their leisure activity. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that studying is not important, boring as well as can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Social Network Analysis: History, Theory and Methodology can

make you really feel more interested to read.
