Will the world, as we know it, end in 2012? It's the intention of this book to teach you what you'll need to know IF it does. Spiritual/scientific predictions, asteroid impacts, pandemics, economical/governmental collapse, solar flares, electrical grid failure, climate change, epic floods, WW3, Planet-X, peak oil, super tsunamis, alien invasions, how the government's preparing; this book has it all, and teaches how you and your family can survive it all. A complete self-help guide not only for the end times, but any global crises, of which we seem to be having plenty of lately. Written by a retired Boeing Aerospace Technician who lived six years 100% self-sufficient and cut-off from society; Dan Martin presents eye-opening views of humanity; and his insights into possible future events are breath-taking, to say the least. The book makes you wonder, is the end closer than we think? Are any of us really prepared?
