Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) Robert Creese, M. Adithan

This practical reference/text provides a thorough overview of cost estimating as applied to various manufacturing industries, with special emphasis on metal manufacturing concerns. It presents examples and study problems illustrating potential applications and the techniques involved in estimating costs.;Containing both US and metric units for easy conversion of world-wide manufacturing data, Estimating and Costing for the Metal Manufacturing Industries: outlines professional societies and publications dealing with cost estimating and cost analysis; details the four basic metalworking processes - machining, casting, forming, and joining; reveals five techniques for capital cost estimating, including the new ACE International's Recommended Practice 16R-90 and the new knowledge and experience method; discusses the effect of scrap rates and operation costs upon unit costs; offers four formula methods for conceptual cost estimating and examines material-design-cost relationships; describes cost indexes, cost capacity factors, multiple-improvement curves, and facility cost estimation techniques; offers a generalized metal cutting economics model for comparison with traditional economic models; and more.;Estimating and Costing for the Metal Manufacturing Industries serves as an on-the-job, single-source reference for cost, manufacturing, and industrial engineers and as a text for upper-level undergraduate, graduate, and postgraduate students in cost estimating, engineering economics, and production operations courses.;A Solutions manual to the end-of-chapter problems is available free of charge to instructors only. Requests for the manual must be made on official school stationery.

From reader reviews:

James Ray:

Book is usually written, printed, or highlighted for everything. You can recognize everything you want by a book. Book has a different type. To be sure that book is important matter to bring us around the world. Adjacent to that you can your reading expertise was fluently. A e-book Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) will make you to end up being smarter. You can feel far more confidence if you can know about every thing. But some of you think that open or reading the book make you bored. It's not make you fun. Why they can be thought like that? Have you seeking best book or suitable book with you?

Horace Godbolt:

Why? Because this Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) is an unordinary book that the inside of the book waiting for you to snap the idea but latter it will jolt you with the secret this inside. Reading this book alongside it was fantastic author who else write the book in such awesome way makes the content inside of easier to understand, entertaining means but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of rewards than the other book get such as help improving your talent and your critical thinking means. So , still want to hold up having that book? If I had been you I will go to the book store hurriedly.

Charles Lemaster:

Don't be worry when you are afraid that this book will probably filled the space in your house, you will get it in e-book means, more simple and reachable. This kind of Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) can give you a lot of buddies because by you taking a look at this one book you have issue that they don't and make an individual more like an interesting person. This book can be one of one step for you to get success. This book offer you information that probably your friend doesn't realize, by knowing more than additional make you to be great persons. So , why hesitate? Let's have Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering).

Desiree Grajeda:

Reading a guide make you to get more knowledge from it. You can take knowledge and information originating from a book. Book is published or printed or created from each source that will filled update of news. On this modern era like at this point, many ways to get information are available for anyone. From media social such as newspaper, magazines, science e-book, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just searching for the Estimating and Costing for the Metal Manufacturing Industries (Cost Engineering) when you essential it?
