**Accounting Information Systems: The Processes and Controls** Leslie Turner, Andrea B. Weickgenannt  
This new edition continues to organize key AIS course content (e.g. ERP and relational databases, REA, controls) around four major themes: simplicity of writing and presentation (lower level), business processes, accounting and IT controls, and ethics as it relates to accounting systems. This text offers real-world focus that impacts the chapter exposition, discussion questions, and end-of-chapter exercises and cases. It includes an emphasis on readability that extends beyond the narrative to the flowcharts and illustrations.
