Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design) National Audubon Society, Architects Croxton Collaborative

A new paradigm for environmentally sound construction. A source of inspiration for those concerned for the environment. Audubon House tells the story of how a dedicated team of architects, environmentalists, engineers, research scientists, interior designers, and contractors transformed a 19th-century structure in downtown Manhattan into one of the most energy-efficient, environmentally-responsible office buildings ever designed. Sixty percent more energy efficient than a conventional office building, built at market cost using only off-the-shelf technology and materials, and supporting an extraordinarily healthy office environment, Audubon House has been hailed as the antidote for many of this century's unhealthy and inefficient building practices. Richly illustrated with professional photographs and architectural drawings, Audubon House is both a working model for building professionals and an affirmation of the belief that we can alter our destructive environmental course without sacrificing economic competitiveness. Advance Praise for Audubon House "Audubon House illustrates a shining example of the future of architecture: a future where energy efficiency and the preservation of natural, historic, and human resources are the key to creating spaces that are cost-effective, healthy, beautiful, and magical." --Amory B. Lovins Director of Research, Rocky Mountain Institute "The Audubon House is an embodiment of the hope that humanity will find its proper place within the natural world. What a delight that this practical model can be shared so thoroughly and splendidly. I applaud this important contribution to the art of design for sustainability and encourage one and all to enjoy its inspiration." --William McDonough, AIA Principal, William McDonough Architects Author of The Hannover Principles--Design for Sustainability "A fine book. This shows it can be done--efficiency does not mean a retreat to a lower quality of life." --Dr. Paul R. Ehrlich Bing Professor of Population Studies Department of Biological Sciences Stanford University "A very model of a guide to a major modern building! At last we have the book on the building that shows us what sustainable architecture is and should be." --Jon and Alex Naar, authors of This Land Is Your Land: A Guide to North America's Endangered Ecosystems

From reader reviews:

Ryan Connors:

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite e-book and reading a reserve. Beside you can solve your long lasting problem; you can add your knowledge by the publication entitled Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design). Try to make book Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design) as your good friend. It means that it can to become your friend when you really feel alone and beside that of course make you smarter than ever. Yeah, it is very fortunated for you personally. The book makes you much more confidence because you can know everything by the book. So , let us make new experience and also knowledge with this book.

Cheree Rodriquez:

Inside other case, little folks like to read book Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design). You can choose the best book if you appreciate reading a book. Provided that we know about how is important some sort of book Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design). You can add information and of course you can around the world by just a book. Absolutely right, simply because from book you can understand everything! From your country until foreign or abroad you can be known. About simple point until wonderful thing you can know that. In this era, we can open a book or even searching by internet unit. It is called e-book. You should use it when you feel uninterested to go to the library. Let's go through.

Robert Hansen:

Book is written, printed, or created for everything. You can learn everything you want by a publication. Book has a different type. To be sure that book is important matter to bring us around the world. Adjacent to that you can your reading skill was fluently. A e-book Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design) will make you to always be smarter. You can feel much more confidence if you can know about almost everything. But some of you think this open or reading a new book make you bored. It is not necessarily make you fun. Why they might be thought like that? Have you seeking best book or acceptable book with you?

Ryan Harrison:

Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design) can be one of your starter books that are good idea. We all recommend that straight away because this e-book has good vocabulary that may increase your knowledge in language, easy to

understand, bit entertaining but delivering the information. The author giving his/her effort to set every word into joy arrangement in writing Audubon House: Building the Environmentally Responsible, Energy-Efficient Office (Wiley Series in Sustainable Design) but doesn't forget the main stage, giving the reader the hottest along with based confirm resource data that maybe you can be certainly one of it. This great information can easily drawn you into brand new stage of crucial pondering.
