Creation Of Happiness : THE ENERGY WAR: Positive vs. Negative Expectations, Soul's Dominant focus, Law Of Creation & Repetition, Mastering Consciousness, Heaven & Hell, Earthquakes, New Age Shiva Swati

The book leads to explaining how wars, calamities and earthquakes are created by the logical human thought process wherein individual feelings pass as energies into the Earth Grid of mass consciousness and manifest . Accumulations of negative feelings focused upon by several individuals create mass negative thinking which creates manifestations of the negative thought in physical form through sorrow created as earthquakes, floods, wars , epidemics etc. The increase in calamities reflects an increase in feeling negative over feeling positive. Feelings radiate electric impulses by creating energy shifts in the aura. Negative emotional focus creates depression which transfers as energy of sadness for the mass subconscious mind.

Trauma on mass scale can be averted through changing each individual negative internal dominant focus of feeling sad to a positive internal dominant focus of feeling optimistic in everyday life; so that the energy radiating into mass consciousness into the Earth Grid changes in frequency from negative to positive . As chapters 16-18 explain, calamities are created by energy imbalance on the planet ,due to mass consciousness tilted towards the negative and have to be stopped by restoring the balance of the planet by balancing the positive and negative aspects of everyday life with positive focus winning over the negative focus . The book explains how emotions radiate energies and mass consciousness needs more positive energies to tilt the planet's energy frequency towards a positive vibration , Being emotionally positive entails a soul-body-mind balance, between materialism which just satisfies the body needs and pursuit of peace to attain satisfaction for the soul. The book is written for explaining the fine tuning necessary in each human mind for feeling happy as a choice of focus. Chapter 15 explains the process of understanding and mastering consciousness by self discipline to create happiness in everyday life. The book has been written by receiving energies of words which come from positive light of celestial realms through silent meditation and channeling Creator's energy while using the body as a transmitter of the thinking of the soul, as the co-creator and a participant in the creation of its reality on Earth.

Overcoming difficulties in a life is like crossing over obstacles in the ladder of evolution. Removing problems in life by changing patterns of thinking helps the soul master over negative energies and spread energies of creation of happiness in its life.

The ENERGY WAR is the battle of creative vs/ destructive energies of consciousness. Any thinking which creates long-term unhappiness of the soul by perpetuation of traditional values which have become obsolete in the process of evolution, is an energy of destruction . Destructive thought-waves spread unhappiness, sickness, doubts and doom while creative thought-waves spread peace, happiness, trust in God and good health for the body .

Mastering over difficulties and learning what happiness means from the perspective of the soul , helps in removing all thought processes which enslave humanity into feeling negative. Happiness is created by choosing to feel more positive than negative or more creative over destructive. The process of positive thinking is not as easy as it is propagated as and requires in-depth analysis of all values and beliefs which make a person choose to remain in unhappiness, by choice. All thought-processes which create unhappiness have to be either deleted or uplifted to enable the person to feel happier as a soul. The person feels successful as a co-creator when s/he can upgrade his/her consciousness to understand problems as learning lessons and

overcome negative circumstances while remaining positive in attitude. The ability to delete all old programs of thinking can be imbibed only by connecting to a higher wisdom from the invisible positive channels of energy realms which constantly is connected to its rays.
