Global Issues and Ethical Considerations in Human Enhancement Technologies (Advances in Human and Social Aspects of Technology) Steven John Thompson

With rapid advancements in human enhancement technologies, society struggles with many issues, such as definition, effects, participation, regulation, and control. Current and future initiatives in these technologies may not be in the participants best interests; therefore, it is imperative for research on humanitarian considerations to be available to those affiliated with this field.

Global Issues and Ethical Considerations in Human Enhancement Technologies compiles prestigious research and provides a well-rounded composite of the fields role in emerging technologies. Addressing both present and future concerns, this publication serves as a valuable reference work for researchers, students, professionals, and practitioners involved in computer science and the humanities, as well as many engaged in a humanities approach to metasystems, new artificial life, and robotics.
