The Roller Coaster Economy: Financial Crisis, Great Recession, and the Public Option Howard J Sherman

Written by one of the foremost experts on the business cycle, this is a compelling and engaging explanation of how and why the economic downturn of 2007 became the Great Recession of 2008 and 2009. Author Howard Sherman explores the root causes of the cycle of boom and bust of the economy, focusing on the 2008 financial crisis and the Great Recession of 2008-2009. He makes a powerful argument that recessions and the resulting painful involuntary unemployment are inherent in capitalism itself. Sherman clearly illustrates the mechanisms of business cycles, and he provides a thoughtful alternative that would rein in their destructive effects.
